### INFORMATION ON HOW TO EFFECT DRAWING CHANGES

## 1. Correction of Informalities--37 CFR 1.85

The following information is requested here. The application number, the title of the invention, the name of the inventor, and the name and telephone number of the person in the Office to whom to reach the drawings, if proper, apply. This should be placed on the back of each sheet of drawing in accordance with 37 CFR 1.84(d). A separate mailing label with a return address and receipt of the date of filing should be placed on the back of the drawing. The drawing may be filed under the provisions of 37 CFR 1.82. The drawing should be filed on a separate page with a transmittal letter addressed to the Drawing Processing Branch.

## 2. Timing for Corrections

There is no requirement to submit **acceptable** drawings of the invention as three-month shortened statutory periods for the MPEP of "A Prioriability" (PMA) are not available for such drawings. Incomplete drawings submitted within the range of the "acceptable" filing date would be considered as if they were not submitted. The original three-month period for filing drawings of the invention is not extended by the filing of a preliminary application. Therefore, applicants should file corrected drawings as soon as possible.
